

# Homes For Hope

## Annual Report 2010

Wow what a fun year! It is hard for me to believe that we just completed our third year.

This past year has been a year of growth. We survived a computer crash, a 60% increase in the number of jobs over 2009, our first grant and an increase in our recurring volunteers.

One of these volunteer's had this to say about working with Homes For Hope.

*"I was recently blessed through Homes for Hope with the opportunity to assist in the construction of a wheelchair accessible ramp for a family who otherwise would be unable to provide continued mobility for a beloved family member. This family watched on graciously, while complimenting on our hard work and attention to detail. The appreciation evident in their tearful eyes and grateful smiles was more than enough to warm our hearts, but when all was finished and we were hugged and thanked seemingly endlessly, I wasn't sure who had benefited more from the experience, us or them. I'm very happy to be a part of Homes for Hope and can't wait for the next chance to help someone in need."*

*~Chris Bierlein*

Statically, we did 40 projects. These projects covered a wide variety of projects. We had technical jobs such as building handicap ramps, porches along with plumbing and electrical repairs. We also had a few simple cleanup projects.

# Homes For Hope

Financially, we spent \$9,420.86. We received \$5,864.00 from the golf outing this year. When we include the grant we received at the end of the 2009 our account balance is around \$3,800.00.

# Homes For Hope

We have developed two new partnerships relationships for job referrals. These relationships provide three to four inquirers each week on average. The majority of these inquirers do not fit our service requirements, but they do give us greater exposure.

We are looking for another great year!!!
